### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

.....

#### TITLE

The title was amended to read –Apparatus for Sensing Cardiac Contractile Function--.

#### CLAIMS

Claims 1-21 have been canceled.

.....

2. The following is an examiner's statement of reasons for allowance: there is no teaching in the prior art of record for modifying the Cunningham lead to contain a second concentric cylindrical lead with conductive means for sensing cardiac electrical activity. The applicants give criticality to such an arrangement in that it does not require a built-in accelerometer with a dedicated implantable lead, thus allowing a less bulky profile. The arrangement further allows placement of the accelerometer within a pre-existing implanted lead, thus enabling more versatile treatment control.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
